Are you interested in photography and making change in your community? Here’s your chance at a great opportunity to combine both!

Critical Exposure’s Youth Internship Program is a chance for high school students to learn new skills and take on leadership roles.

Youth Interns will work together to look at problems affecting youth across the city; use photography to document the problem; and fight for solutions.

Beginning in February 10th, we meet twice weekly on Mondays and Wednesdays to learn photography techniques, discuss advocacy opportunities, and work together to create change.
